ABOUT US

Our history dates back to 1987 when we started doing energy conservation for hotels under the name 'Digital Aids'. From 1990, we started manufacturing electronicsafes under the brand name "VAULTEK." Our competitive edge lies in our indigenous design & manufacturing of electronic safes' products on an end-to-end basis. We have complete control over the quality of all key components of the safes-mechanism, bolt-works, shooting bolts, hinges, handles & a wide range of electroniclocks. Over a period of time, "VAULTEK"expanded its range of safes from basic keypad to high-end biometric models using latest technology semiconductor sensors, Smart Safes operated with Smart phones, etc. By virtue of our products' world class quality & after-sales, we soon established our network all over India and are exporting to the Middle East & other Asian countries as well.

Today,"VAULTEK" also offers a wide range of Digital & RFID cabinet locks for varied requirements viz., SPA, GYM, Swimming Pools, Water Parks, Mobile Lockers, Home, office, etc. The locks are programmable at site & can be used in both PUBLIC & PRIVATE applications. The Pin locks increase the convenience level in Cupboards, Drawers, Lockers for Home, Shops &Office areas. The RFID locks are available in simple Proximity or Smart Card technology. These locks are popular for water park lockers using wrist bands. We also offer concealed or totally invisible locksmounted behind wooden doors of cupboards/drawers which can be unlocked with tags, cards or wrist bands from a distance of 20-mm.
